

Mid Valley Pipeline Spill Update for 10/21/2014

- There are 277 total personnel working the Response.
- Total estimated liquid recovery to date is approximately 2617 bbl. of crude oil
- 2113 bbl. of recovered crude oil has been transported off-site and recycled at Sunoco's Haynesville Station, in Haynesville, LA.
- No impacts to Caddo Lake have been reported
- The pipeline spill origin point has been excavated, isolated and wrapped in preparation for removal under the supervision of PHMSA. Removal of the damaged joint of pipe will likely occur later this week.
- A pathway is being created along the entire stretch of the impacted creek using shredders for access
- 8 reptiles captured, 7 reptiles cleaned, 2 reptiles released, 26 reptiles dead on arrival. 1 bird captured, 1 bird cleaned, 1 bird dead on arrival. 70 dead fish have been collected.
- The UC is creating a Weather Contingency Plan to deal with any potential rain event.
